

**. Differential diagnosis of cutaneous lesions with a plexiform growth pattern
(Diagnostico diferencial de lesiones cutáneas con patron de crecimiento plexiforme)**

Cutaneous lesions with a plexiform configuration

Neural entities

Melanocytic entities

Benign	Malignant	Benign	Malignant	Other conditions
Neurofibroma	Malignant peripheral nerve sheath tumor	Plexiform spindle cell nevus	Neurotropic melanoma	Plexiform fibrohistiocytic tumor
Schwannoma		Spitz nevus		Cellular neurothekeoma
Mucosal neuroma		Cellular blue nevus		Ossifying plexiform tumor
Perineurioma		Congenital melanocytic nevus		Plexiform xanthomatous tumor
Granular cell tumor				Cutaneous myoepithelioma
Hybrid lesions
